4 of 4 people found the following review helpful. A very important book. By Timothy R. Ottinger A very enlightening and insightful book, a must-read for all people who work in fields where creative thought is required or expected. I bought both electronic and paper editions. This book was only recently made available after a long hiatus. It's a very important book and I'm glad we didn't lose it. 1 of 3 people found the following review helpful. Five Stars By EVA S. PEREIRA Good material for a thesis...

"The first in time I shall call Preparation, the stage during which the problem was 'investigated ... in all directions'; the second is the stage during which he was not consciously thinking about the problem, which I shall call Incubation; the third, consisting of the appearance of the 'happy idea' together with the psychological events which immediately preceded and accompanied that appearance, I shall call Illumination. And I shall add a fourth stage, of Verification ..." Solis Press are pleased to be able to republish Wallas' seminal book on creativity that had sadly been out of print for many years. Graham Wallas (1858-1932) was a social psychologist and educationalist who helped found the London School of Economics. This edition is based on the first edition of 1926 and has been completely reset in fresh type. "Wallas plainly is courageous, tolerant, keenly observant, and widely experienced in social matters." The Sewanee Review
